Re: Mechanics For Reporting Fouls – Elimination of Finger-Number Signals

As of 2020 it is no longer necessary to signal to the table area the jersey number of the player who has committed a foul using your fingers to represent his jersey digits. A verbal signal shall suffice.

Officials should continue to announce fouls to the table area (using CNOTE):

- Determine which team has committed the foul, and point toward the end line of that team’s bench area as you verbally announce their jersey color
- Announce the number of the player who has committed the foul
- Announce the name of the offense while simultaneously executing the foul signal
- Announce the penalty time
- Announce anything extra (non-releasable, etc.)
